

Hello GT friends,

The corona crisis has a grip on our planet and as a result GT events are about to be canceled or postponed.

Techno Classica Essen is postponed until June and the Alt Opel IG annual meeting is postponed to next year.

The most important question for us is: What will happen to the PENTECOST EUROMEETING IN FREDERICIA / DENMARK? The board of the GT Klub Danmark discussed the current situation on March 24th. We from the DV are in constant contact with the Danish club and the clubs that want to host the following European meetings.

A decision will be made shortly and then all registered participants will be informed personally. Until then, please be patient.

For the GT meetings, which are to take place at the end of the season, there is hope that the crisis has calmed down by then.

We would be grateful for current information from organizers of further meetings.

The Entraide Opel GT writes:

_Hello, _
_for you and the club information, more details about the Charleville-Mézières event. _
_Registration for the hotels did start already, registration for the event will open later in the year, if everything is getting normal again. __I hope everybody is safe in your family. _

_All the best, _
_Pierre Cooreman _
_Entraide Opel GT _

With Cees van Leeuwen we have a supporting member in Australia now. You can read more about Cees in the GT // LOVE book.

With Jörg Tassler, the Opel GT Stammtisch Saar / Pfalz has a new contact.

We continue to focus on the other topics that we have initiated, but at the moment this is not important.

STAY HEALTHY!

With kind regards,

Olaf Moldzen & Louis van Steen
